💼 Experience

Nielsen Consumer LLC

QA Tester

Apr 2023

- Executed manual testing including functional, regression, and smoke testing across multiple application modules.
- Designed and executed detailed test cases and test scenarios improving defect detection before production releases.
- Identified and reported software defects using bug tracking tools, reducing production issues through early detection.
- Validated backend data using SQL and Snowflake ensuring data accuracy and consistency across systems.
- Collaborated with developers, analysts, and product teams to resolve defects and improve product quality.
- Improved testing coverage and documentation which enhanced overall QA process efficiency.

Nielsen Consumer LLC

Analyst - Market Research

Aug 2020 - Mar 2023

- Analyzed consumer and market datasets to generate business insights for product and strategy teams.
- Utilized SQL-based data validation to ensure accuracy and integrity of analytical datasets.
- Prepared analytical reports and dashboards supporting data-driven business decisions.
- Improved data quality by performing validation checks and identifying inconsistencies in datasets.

The Nielsen Company (US) LLC

Analyst - Market Research

Dec 2019 - Jul 2020

- Performed market data analysis and generated insights used by business teams.
- Maintained data quality through validation processes and reporting standards.
- Collaborated with internal teams to ensure accuracy and consistency in reporting outputs.
